SUMMARY

WordPress Developer with hands-on experience in developing and customizing responsive WordPress websites, including theme customization, plugin integration, content management, cPanel, and website optimization. Skilled in HTML, CSS, JavaScript, jQuery, Bootstrap, WordPress, and basic PHP, with knowledge of SEO and website performance optimization. Experienced in troubleshooting website issues, improving responsiveness, and working with web hosting environments. B.Tech Computer Science graduate with strong problem-solving, communication, and teamwork skills, seeking a WordPress Developer opportunity in the travel and tourism domain.

EXPERIENCE

Click Catcher, Wordpress Developer

10/2025 – 04/2026

- Developed and customized responsive WordPress websites using themes, plugins, HTML, CSS, JavaScript, and basic PHP
- Customized WordPress layouts, pages, navigation, content sections, and website components according to project requirements.
- Worked with cPanel for website files, databases, hosting configuration, and website maintenance.
- Improved website responsiveness and compatibility across desktop, tablet, and mobile devices.
- Performed website troubleshooting, content updates, layout fixes, and basic performance optimization.
- Assisted with WordPress SEO optimization, website structure, metadata, and content improvements.
- Worked with WordPress plugins and customized website functionality based on client requirements.

Sure Trust, Intern

07/2025 – 01/2026

- Applied data-structures and algorithms to solve 12 coding challenges, reducing problem-solving time by 20%.
- Co-developed a full-stack web app in a Scrum team of 5, delivering weekly increments on schedule.
- Implemented RESTful APIs with Node.js/Express to connect front-end components to backend services.
- Engineered responsive UI components with HTML5, CSS3, JavaScript, and Bootstrap, improving mobile usability scores by 15%.

EDUCATION

BTech in Computer Science, Sir Chhotu Ram Institute of Technology

08/2022 – 05/2026

SKILLS

- **Languages:** Java, JavaScript
- **Frontend:** HTML5, CSS3, JavaScript, jQuery, Bootstrap, React.js , Responsive Web Design
- **Backend:** Spring Boot, Node.js, Express.js, REST APIs
- **Database:** MySQL, SQL Server
- **Tools:** Wordpress ,Git, GitHub, VS Code, IntelliJ IDEA, Postman, Jira , SSMS
- **WordPress:** WordPress CMS, Theme Customization, Plugin Integration, WordPress Maintenance, cPanel, Basic PHP ,WordPress SEO, On-Page SEO Basics, Website Performance Optimization, Mobile Responsiveness

PROJECTS

Learning Management System (In Progress) :

- Built a web-based LMS using Spring Boot, MySQL, HTML, CSS, and JavaScript.
- Implemented RESTful APIs and CRUD operations to manage learners, courses, and enrollments.

Stock Trading Platform (Zerodha Clone)

- Built a full-stack trading platform using React.js, Node.js, Express.js, and MongoDB.
- Implemented JWT-based authentication, buy/sell simulation, portfolio management, watchlist, and transaction history.
- Designed RESTful APIs for frontend-backend communication and a responsive, scalable UI.

ResQnet-Unified Emergency Response & Community Assistance Platform,

Group Project | TataStrive Full Stack Java Training Java, Spring Boot, Spring JDBC, React.js, MySQL, JWT

- Collaborated with a team to develop a full-stack emergency response and community assistance platform.
- Contributed to Spring Boot backend development, REST APIs, and MySQL database integration.
- Integrated frontend components with backend services using React.js and REST APIs.

JanReport – Civic Issue Reporting & Tracking Platform

- Contributed to the frontend development of a full-stack application, designing responsive user interfaces with HTML, CSS, JavaScript, and Bootstrap.
- Integrated frontend components with server-side functionality, improved UI structure and user experience, and gained practical experience in team collaboration and real-world project workflows.

TECHNICAL CERTIFICATIONS

Full Stack Java Development – Tata Strive Skill Development course

05/2026 – Present

4-month Full Stack Java Development Training Program at Tata STRIVE, gaining practical knowledge of software development and web application technologies. Worked on a full-stack web application project involving frontend development, backend logic, and database integration. Strengthened problem-solving, teamwork, communication, and professional skills while following industry-standard development practices and software development life cycle (SDLC) methodologies. Conducted unit and integration testing using Jest, achieving 85% code coverage.
